rus, "What's to be done?" The commandant at West Point Military Academy had decided that this year the cadets should not have their annual hop. The Secretary of War overrules this decision, and the hop is to come off. By prescriptive right each cadet is enti-

tled to a partner, and thus so is colored cadet Smith. The ladies, not having the fear of Congress before their eyes, now combine together in defiance of that body and its solemn gether in defiance of that body and its solemn enactments, to deprive a citizen of his rights on account of color, for they utterly refuse to dance with the black cadet. It has been suggested that a colored "lady" might be invited for his behoof. But in this case the fair rebels say that they won't go to the hop at all. And thus a band of ku-klux in dimity triumph.

PHERIMAGE—New York, June 2.—To-mor-row some sixty Knights Templar belonging to Alleghany Commandery, of Pittsburg, sail on the steamer Oceanica for a somewhat extended pilgrimage. They will visit the tomb of the greatest Grand Master of the Order, Lavallette, who said to proud Philip of Spain that the cardinal's hat was an empty honor compared with the laurels he had won in the defeat of Solyman the Great, and so he declined it. After viewing St. Elmo and its chapel and tombs, the Knights will be taken to Rhodes. Thence the Knights will proceed to Palestine, visiting Joppa, Jerusalem and the holy sepul-chre. While at Jerusalem it is not unlikely that they will witness the reception of the Czar of Russia, who this summer will make a pilgrimage to the same shrine.

A SHREWD case of false pretences was developed in England latterly in the means adopted by an elderly Englishman, who was bankrupt, but who still enjoyed the reputation of being a rich man, to live at peace with himself and the world without any expense to himself. He made a will, in which he devised large sums to various friends, relatives, and charitable institutions. The grateful beneficiaries thereupon quarrelled for the privilege of entertaining him as an honored guest at their houses. The old gentleman lived like a prince, first with one and then with another. His death occurred the other day, when the true condition of his worldly affairs was discovered, amid much profane comment on the part of the duped "heirs."

BOOKS &c .- The State Board of Education were in session Friday and Saturday last, in Richmond.

The following books were adopted for use in the public schools of the State after September

Spencerian copy-books, Holmes' history (U. S.), Guyot's wall maps, Schedler's globes, manufactured by B. Westermann & Co., New York; Webster's and Worcester's dictionaries, and Wilson's and Calkin's school and family

The Board recommends the chalk crayon manufactured by J. A. Baueroft & Co., Philadelphia.

STIKES .- Mr. Peter Cooper, who had been a mechanic for many years before becoming a merchant, took occasion, a few days ago, in reply to an address from a class of the noble institute which bears his honored name, to relate some of the experiences of his past life. Many of his plain words were very impressive, and cannot be too often repeated :

"Let me record (said he) that, during a long life passed in active business, I have never known any but evil consequences to all classes, and especially to the innocent, to result from strikes, lock-outs, or other forcible measures designed to interfere with the steady and regular march of productive industry.

A New Hop-Carrier,-A most ingenious invention is in practical use at Ford's new opera-house, on Fayette street near Eutaw. raising bricks and mortar to the upper stories. It is in the form of an endless iron ladder, made with links revolving around cylinders above and below, worked by a crank and cogwheels. The hods each have a stout iron hook attached, which serves to hold them on the rounds of the moving ladder. Above they are taken off, and the empty hods are sent down on the descending rounds. The contrivance saves the carrier from going up or down lad- reasonable prices. ders with hods, and facilitates very much the delivery of material on high scaffolds. - Balt.

AN INEXTINGUISHABLE SIGNAL LIGHT.—A new signal light, possessing most remarkable properties, has now been brought out in England. Its peculiarities are that it is selfigniting when placed in water or thrown on the sea. Contact with water being the only means of igniting the lamp, it is inextinguishable when once ignited. Neither wind nor storm has any effect upon the flame. The light is of inteuse brilliancy and of great duration, and can be seen for a great distance in the open air. Photograph's may be taken by it.

A Cool Proceeding .- The people of Pittsburg recently built by subscription an expensive and elegant monument in honor of the Pittsburg soldiers who fell during the late civil war. When on decoration day, they turned out to dedicate the monument they were amazed to find that not a solitary soldier's name was inscribed upon it, but, instead, all the names of the corporators (twenty in number and all ladies) of the Building Committee and of the builder. The people are very indignant, and demand that the names shall be effaced.

RAILROADS.-The statement received from California to the effect that a combination had been effected between the Pennsylvania Central, Union Pacific and California Pacific (not Central Pacific) railroads involves consequences of national importance. The effect of the Pennsylvania-Union-California combination is likely to be no less than that of giving to the country a second complete transcontinental railroad, which will be effected by building two links of three hundred miles each.

Being a "Rebel." The Commissioner of Patents has extended the patent originally granted to James E. A. Gibbs of Virginia for sewing machines. The opponents to the extension alleged that the patentee was debarred from the rights of inventors on account of his cive sympathy with "the rebellion." He roved, however, that he had no interest in he patent during the war, and in this he was ustained by the Commissioner of Patents.

MARRIAGE.

Immediately cured and Full Vigor Restored.

This distressing Affection—which renders life miserable and marriage impossible—is the penalty paid by the victims of improper indulgencies. Young persons are too art to commit excesses from not being aware of the dreadful consequences that may ensue. Now, who that understands the subject will pretend to deny that the natural powers are lost sooner by those failing into improper habits than by the prudent? Besides being deprived of the pleasure of healthy offspring, the most serious and destructive symptoms of both body and mind arise. The system becomes deranged, the Physical and Mental Functions weakened. When the misguided and ir prudent votary of pleasure finds that he has imbibed the seeds of this painful disease, it too often happens that an ill-time sense of shame or dread of discovery deters him from applying to those who, from education and respectability, can alone perfected him, delaying till the constitutional symbonis of this heard disease makes their appearance, such as ulcerated sore throat, diseased nose, nocturnal

pains in the head and limbs, dimness of sight, dearness, nodes on the shin bones and arms,

blotches on the head, face and extremities, pro-

gressing with frightful rapidity, till at last the palate of the mouth or the bones of the nose fall in, and the victim of this award disease becomes a borrid object of commisseration till death puts a period to his dreadful suffering, by sending him to that undiscovered country "from whence no traveller returns." It is a melanchory fact that thousands DIE victims to this terrible disease, through stating into the hands of ignorant of unskinut PRE-TENDERS, who, by the use of that deadly Poison, Mercury, &c., destroy the constitution, and meanable of curing, Keep the ultimappy sur ferer month after month tak ng their noxious o injurious compounds, and instead or being re-stored to a renewm of Life, Vigorand Happiness
